PROFESSIONAL EXPERIENCE

VISIONMULE - 2010 to Present –
My freelance company where I've connected with 18 small business owners (and counting). VisionMule has built various web based solutions based on individual client needs supplying hosting, domain registration and management, maintenance and analytics.

Front-End Developer & CMS Wrangler
• Wrangled WordPress & WooCommerce for Homestead Stove's website. Helped complete a $3600 sale after customer left for Germany. Added 200+ products. Connected over 23,000 Oregon & Washington visitors since 2012. **https://homesteadstove.com**
• Created a new, responsive WP based website for Discover Counseling. Provided a means for Aaron to onboard clients through web forms. **http://discovercounseling.com**
• Built a basic site and e-commerce solution for Standard Brick House Records. Helped to take pre-orders for a world-wide vinyl release. **http://standardbrickhouse.com**
• Migrated Parkview Antiquitys from OpenCart to Woocommerce. Moved 600+ products and 1300+ images to fresh install of WooCommerce. Providing training for client usage. **https:/www.parkviewantiquitys.com**

INDIEBLITZ – 2009 to 2015 –
A startup I helped initiate with 3 other founders to help independent filmmakers sell and distribute their films throughout the world.

Web Designer & Client Relations
• Helped 30+ filmmakers distribute their films throughout North America and internationally in the digital, DVD and Blu-ray markets.
• Customized WordPress & WooCommerce to allow filmmakers sell 50+ films physically and digitally to customers around the world.
• Provided customer service support successfully serving thousands of customer's indie film needs.
